The Origin Series from Loopmasters are mixed mode CD roms for Mac and PC which feature 100% copyright free inspirational loops, multisamples and single sounds for new wave musicians, DJs and producers worldwide.

All the titles have been made using the best technologies and the samples are highly flexible and can be used in many different contexts. Variations, single hits and multis are presented alongside excellently produced stereo loops with light use of FX and EQ to ensure you have the most usable sounds for your work with maximum inspiration and impact. The CDs can be used with most music software programs (Logic/VST/Reason/Recycle/Acid), and the inclusion of Rex2 files for most loops and patterns mean that you have total flexibility over pitch and tempo.

The Origin series represents excellent value for money, professional quality and total inspiration, check out the new breed of sounds which set the standards others can only follow!

Our brand new website located at www.loopmasters.com features 100s of free downloads in multiple formats, reviews, news and secure shopping facilities. Visit soon to register your purchase and to get access to our exclusive members only download centre, where you can get the latest loops and downloads, previews, special sample kits, reason patches and rex2 loops!

Using the CD

The Origin Series CDs have been created with the user experience as our central focus. All the titles in the series work excellently together or on their own - simply copy the contents of the CDs to your computer hard drive, open up your sampler, sequencer or music software program of choice and start experimenting!

All the sounds in this collection have been created especially for this project, and there are no additional licences or royalties to pay when you create the next big club anthem, tv edit or remix!

Wav file users: Simply browse the CD for the folder that you require and load up or audition any of the sounds that you require.

Rex2 users: Within each main folder for any loop based or phrase instruments (drum loops etc) you will also find another folder contained within this directory with the stereo rex2 files present for you to start using.

Reason/NNXT/EXS24/Halion/Kontakt Users:

You will find any patches from the CDs that are available for your chosen soft sampler contained within the same folder as the wav files. Simply browse for the patches with your chosen sampler or use your CD explorer function to locate which folders contain the patches you require.
